G. A. ECKERLY & BROS. iolesale Grocers and Cotton Factors Board of excellent quality may be had at \$10 and \$12 per month, by paying monthly, in advance. The necessary expenses of a student, omitting books and clothing, need not, therefore, exceed \$125 to \$150 per session. The departments of Chemistry and Natural History, and of Physics and Astronomy, are provided with a good supply of apparatus for experiment and illustration. The University, Law and Society Libraries, contain several thousand volumes, and will be increased. The course of instruction is thorough, and the Paculty is composed of able, experienced, christian men.

The University occupies a beautiful site, near the village of Oxford, in the midst of an exceptionally healthy section of country; and is, in a measure, free from those seductive influences by which so many roung men are led astray in our cities and large towns. The Law Department has been reorganized, and will be open for the reception of students at the beginning of the next session.

For healthfulness and beauty of location, the felities it affords for the sequisition of a thorough education, the moral and christian influences thrown around young men, and for CHALPENESS, this institution is not surpassed by any of like grade in the United States.
